

TASKI® go

The essence of simple design & function

The new TASKI go tub vacuum cleaner offers a cost effective solution for daily vacuum cleaning. Through the proven technology and robust design the product is the perfect match for all vacuum cleaning applications. With the powerful, yet quiet motor reliable cleaning results are guaranteed.

TASKI go brings you:

- Great value for money
- Practical and robust design
- Powerful and silent performance
- Made with 75% recycled material

Best value for money

Through the use of cost effective materials and lean production methods the TASKI go offers a cost effective vacuum cleaner with no compromise in cleaning results.

Practical and robust design

The TASKI go vacuum cleaner has a simple, functional design and is engineered for high frequency cleaning tasks. By rationalising the number of parts used the TASKI go has an excellent reliability.

Powerful and silent performance

The 900W high power motor in combination with the smart motor positioning delivers powerful cleaning performance with low noise emissions.

Made with 75% recycled material

The TASKI go is made of 75% recycled plastic and is compliant with RoHS and REACH standards.

Technical data			
Canister volume	16 L	Cable length	8.5 m
Dust bag capacity	8 L	Hose length	2 m
Bag type	Paper	Suction tubes	Metal
Nominal consumption	900 W	Floor tool width	270 mm
Voltage	220/240 V	Dimensions	420x390x350 mm
Weight with cable	5.7 kg	Protection class	Class II
Sound level	64 db(A)	HEPA Option	No
Sound power level	74 dB	Approvals	CE
Vacuum	22 kPa	Filtration (stages)	3
Max air flow	44 l/sec
