

procarpet 30

38cm(15in)CarpetCleaning System

Key features

- Reliability and High Performance
- Flexible Application
- Lower Total Cost of Ownership
- Simple and easy to use

Reliability and High Performance

TASKIprocarpet30 has been designed with the reliability found on all our floor care machines. TASKI has developed this machine using our expertise in vacuum pick-up and chemical application to design a high performance carpet cleaning with excellent results.

Flexible Application

TASKIprocarpet 30 allows users to select the cleaning application that best fits their needs based on turnaround time and soil levels. The machine can be set-up for deep cleaning extraction for heavy soils or restorative type cleaning application and also be set-up for interim cleaning using our specifically formulated encapsulation chemical.

Lower Total Cost of Ownership

The machine allows customers to control all carpet cleaning activities and select the application that best fits their needs. Utilizing interim cleaning will help to extend the time between deep cleaning activities keeping carpets looking better longer without extended dry times.

Simple and Easy to Use

The machine can be changed from deep extraction to interim clean simply by changing the chemicals and flipping a switch. The perfect balance point allows fatigue free working also for long working hours. A large variety of accessories allows covering added cleaning tasks.

Technical data			
Theoretical performance	420 m2/hr (4521 ft2/hr)	Dimensions (L x W x H)	109x47x94 cm (43x19x37 in)
Productivity (Extraction)	200 m2/hr (2,153 ft2/hr)	Machine Weight (empty)	52kg/115 lb
Productivity (Encapsulation)	405 m2/hr (4,359 ft2/hr)	Sound Level Brush	< 70 dB(A)
Working Width	38 cm (14.9 in)	Motor Vacuum Motor	650W
Solution Tank	30L/8G	Brush Speed Brush	1000W
Recovery Tank	30L/8G	Pressure	1000 rpm
Cord Length	15m (49 ft)		10-17 kg (22 – 37 lb)
Rated voltage	230 V /50 Hz

Additional Features
Easy Brush Access: The brush can easily be removed from the side for cleaning and replacement. Parking Lever: The parking lever lifts the brush off the floor when storing the machine to prevent damage to the brush. This also allows users to leave the brush attached while the machine is stored. Carpet care wand: Can be used for hard to reach areas and quickly connects to the TASKI procarpet 30. Hand Tool: Can be in combination with the wand and hose to convert the attachment for upholstery cleaning or can be used in combination with the recovery hose.
