

swingo® 1850 B

Large battery-powered automatic scrubber drier

Key features

- Increased productivity
- Excellent cleaning results
- Simplicity and ergonomomy
- Easy maintenance

Increased working autonomy

A big tank and the highly efficient IntelliFlow system which reduces water consumption by up to 40%, give great water autonomy and allow cleaning of up to 2500 m² without time-consuming tank-filling stops. The wide working width of 85 cm helps you to increase productivity and to achieve significant time savings.

Excellent cleaning result and immediately dry floors

The brushes perfectly follow the floor profile and therefore deliver ideal soil removal. Thanks to the w-shaped squeegee which delivers a best-in-class drying result, the machine can be used at any time of the day, reducing the potential risk of slip/fall accidents caused by wet floors.

Simplicity and ergonomomy

With excellent ergonomics and simple, intuitive controls, the machine reduces operator fatigue and training needs to a minimum.

Easy maintenance

All parts which need frequent cleaning/maintenance are colour coded in yellow and can be removed within seconds. This makes maintaining the machine self-explanatory and easy – which ensures always the best result and extends the machine's lifetime.

Technical data			
Theoretical performance	3825 m ² /h	Dimensions (L x W x H)	162 x 88 x 119 cm
Working width	85 cm 110	Brush system	2 x 43 cm
Squeegee width	cm 85 L	Brush pressure (maximum)	0.18 N/cm ²
Solution tank	85 L 1,200	Cleaning speed	4.5 km/h
Recovery tank	W	Max. ramp	2.0 %
Nominal consumption	180 Ah/C5	Sound level	62 dB(A)
Battery capacity (max)	3-4 hours	Protection class (BMS/non BMS)	III
Battery capacity	345 kg	Approvals	CE/CB Test certificate
Machine weight ready for use (including water)			

Model	Article code
TASK® swingo® 1850 B	
I®IntelliDose®	
TASK	

Accessories/Additional parts	Article code
Pad drive harpoon grip 43 cm	7517858
Scrubbing brush standard 43 cm	7517859
Scrubbing brush abrasive 43 cm	7517861
TASKI contact pad 43 cm	7505220
TASKI 3M pad 43 cm White/Red/Blue/Brown/Black	Please refer to list
TASKI 3M pad 43 cm Purple (Diamond pad)	
Filling hose with universal coupling	
Optional wheels: polyurethane brown and polyurethane green (supergrip)	Option

Description of Features
BMS (Battery Management System): The battery charger is integrated into the machine. A monitoring system prevents deep discharging of the battery and controls the charging process. IntelliFlow: With the patented IntelliFlow system exactly the right amount of cleaning solution is dosed onto the floor. The result is no puddles in curves and turns as well as a 30-40% saving in cleaning solution, which leads to significantly increased productivity of the machine. IntelliDose: IntelliDose is a chemical dilution system that will help you to achieve consistently high cleaning results, control your costs and simplify your machine operation, and to avoid overdosing.
